

Our vision is to develop cost-effective medical products and therapy solutions by listening to our customers and being responsive to their needs. As a result, we are constantly adding new products to our product portfolio. This page provides details of the latest product developments.

#### **Cutimed® Siltec Heel**

A shaped foam dressing from the Cutimed Siltec range - with a silicone wound contact layer, thicker PU foam (7mm) and super-absorbers above the foam core. Gentle and effective fluid management. For further information, please [click here](#).

#### **JOBST® Elvarex® Soft - NOW more availability on Drug Tariff**

JOBST Elvarex Soft is now available in black and our limb range is now available in compression class 3 (34-46mmHg) on Drug Tariff. For further details, please [click here](#).

#### **JOBST® Elvarex®: Brings colour to life**

With three new colours, the flat-knitted compression stockings ensure you are well-dressed every day and for every occasion. The new **dark blue, dark brown** and **grey** colours are available in all lower limb compression classes and are fully reimbursable. For further details, please [click here](#).

#### **JOBST® UlcerCARE**

JOBST UlcerCARE Ready to Wear is now available on Drug Tariff in a wider range of 7 sizes with a colour choice of either beige or black for the outer stocking. For further details, please [click here](#).
